PRIYANSHU TIWARI

info.priyanshu06@email.com · Lucknow, UP · linkedin.com/in/priyanshu-tiwari1117 · github.com/Dev-priyanshu-tiwari · Portfolio

OBJECTIVE

2nd-year B.Tech CSE student seeking a Web Development Internship. Proficient in HTML5, CSS3, JavaScript (ES6+), REST API integration, and responsive UI design. Independently built and deployed 5+ web apps; eager to contribute clean front-end code within an engineering team.

TECHNICAL SKILLS

Frontend: HTML5 · CSS3 (Flexbox, Grid, Animations, CSS Variables) · JavaScript ES6+ · Responsive Design · DOM Manipulation

APIs & Tools: REST API · Fetch API · JSON · LocalStorage · Web Audio API · SVG · Git · GitHub · VS Code · GitHub Pages

Languages: JavaScript · Python · SQL

PROJECTS

SkyPeek — Real-Time Weather Dashboard *2025 | github.com/Dev-priyanshu-tiwari/SkyPeek*

HTML5 · CSS3 · JavaScript · OpenWeatherMap REST API · Fetch API

- Integrated OpenWeatherMap REST API to fetch live weather data (temp, humidity, UV, wind) and 5-day forecasts for any city, with a mock-data fallback ensuring 100% demo uptime.
- Built a °C/°F toggle, city quick-search, and scroll-triggered animations via Intersection Observer API; fully responsive across all screen sizes using CSS Flexbox and Grid.

MindSnap — Interactive Quiz App *2025 | github.com/Dev-priyanshu-tiwari/MindSnap*

HTML5 · CSS3 · JavaScript · SVG · LocalStorage

- Engineered a zero-dependency SPA with 30 questions across 4 categories and 3 difficulty modes, managing complete game state in vanilla JavaScript.
- Designed an animated SVG countdown ring with dynamic color transitions; persisted high scores and streaks via LocalStorage across browser sessions.

FlowState — Pomodoro Productivity Timer *2025 | github.com/Dev-priyanshu-tiwari/Pomodoro-Timer*

HTML5 · CSS3 · JavaScript · SVG · Web Audio API · LocalStorage

- Built a full-featured timer with animated SVG progress ring, task manager, customizable sessions, and mode-specific color themes — zero external libraries or frameworks.
- Synthesized completion sounds using Web Audio API (no audio files); persisted tasks, settings, and daily stats (focus time, pomodoro count, streak) via LocalStorage.

Spendly — Expense Tracker *2025*

HTML5 · CSS3 · JavaScript · SVG · LocalStorage

- Developed a data-driven expense tracker with SVG donut chart, budget progress bar, category filters, month navigation, and CSV export — data persisted via LocalStorage.

EDUCATION

B.Tech — Computer Science Engineering *2024 – 2028 (Expected)*

Dr. Ram Manohar Lohia Avadh University, Faizabad, UP | CGPA: **[7.0]**

- Coursework: Data Structures & Algorithms · Operating Systems (Continue)

ADDITIONAL

Portfolio: dev-priyanshu-tiwari.github.io/My-Portfolio (live demos of all projects)

Learning: Actively practising DSA; exploring React.js fundamentals

Languages: English (Professional) · Hindi (Native)
